COLONEL SCOTT W. JANSSEN

Colonel Scott W. Janssen is Commander, F-16 Systems Group, Fighter Attack Systems Wing, Aeronautical Systems Center, Air Force Materiel Command, Wright-Patterson Air Force Base, Ohio. He is responsible for the development, modification, test, production and sustainment of the F-16 weapon system.

Colonel Janssen is a 1984 graduate of the U.S. Air Force Academy. His first assignment was to the Navstar Global Positioning System (GPS) Joint Program Office at Los Angeles AFB, Calif., where he held engineering and management positions contributing to the development and production of the GPS spacecraft and their payloads. After obtaining a master of science degree in aeronautical engineering from the Air Force Institute of Technology, he was assigned to the Consolidated Space Test Center at Onizuka AFB, Calif. As Chief of Operations, and then Chief of Space Testing, he was responsible for the command and control of several Air Force Space Test Program, NASA and Strategic Defense Initiative Organization satellites. In 1993 Colonel Janssen was assigned to the F-16 System Program Office at Wright-Patterson AFB where he was Program Manager for the F-16's ALE-50 towed decoy system, and then F-16 core avionics. In 1997, he served as Director, F-16 Programs in the Program Executive Office for Fighter and Bomber Programs at the Pentagon. In 1999, Colonel Janssen was selected to be the Executive Officer to the Principal Deputy Assistant Secretary of the Air Force for Acquisition, Washington D.C.

After receiving a master of science degree in national resource strategy from the National Defense University's Industrial College of the Armed Forces in 2001, Colonel Janssen was assigned to the F/A-22 System Program Office. As Chief of the F/A-22 Production Division, he was responsible for the procurement of 276 F/A-22 Raptor air dominance fighters. In June of 2003 he became the Material Group Director, F-16 Programs Division in the F-16 System Program Office where he was

responsible for leading teams managing development, test, production and modification programs for the U.S. Air Force, five European participating air forces and eighteen foreign military sales customers. He assumed his current responsibilities on 1 June 2004.
